It's all in the details

After several successful Community Paint Day events, artists from the Muralism team are putting the finishing touches on the Ash Avenue Boathouse mural honoring the late Carpinteria artist Ray Cole. Local artist Joanna Norstedt lent her precise pointillism skills to the project, filling in the mural with small, distinct dots of color to add dimension to the vibrant marine-themed piece. Once the remaining detail work is complete, the mural will be formally unveiled with a ribbon-cutting ceremony.
